

Equipment: What You Can and Cannot Use to Test and Visit

MUST USE

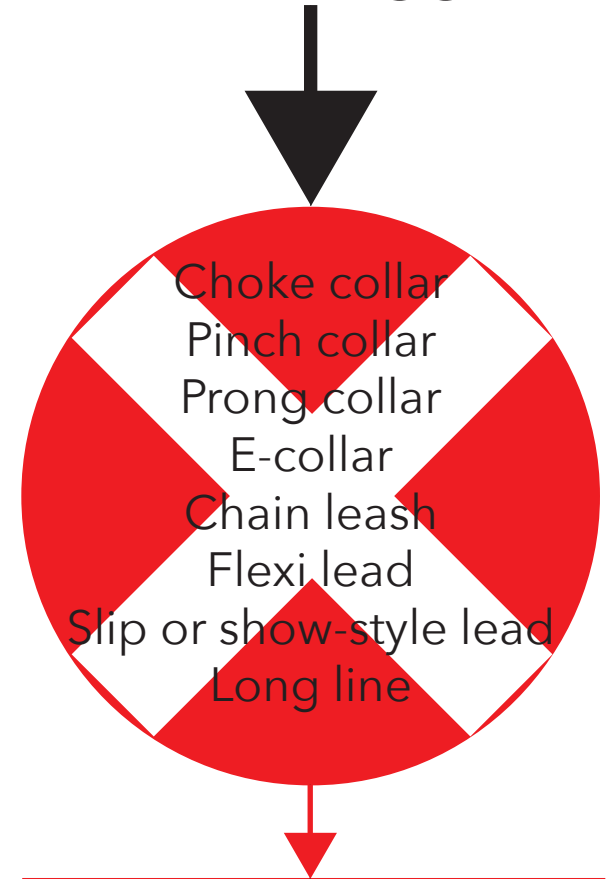

You may test and visit in an all cloth martingale collar instead of a flat collar. Please do not use combination chain and cloth or chain and leather martingale collars.

RECOMMENDED

If your dog responds better, you may test and visit in a face harness (Halti, Gentle Leader, etc.).

NEVER USE

This equipment is not safe for your dog or the people you visit. You may not test or visit using prohibited equipment. Use of prohibited equipment while visiting might result in revocation of your certification.

Important: You must visit in the equipment you test in!
